

For My Angels

You five are my dear children
God gave you each to me
Tho' different reasons took you
Some day in Heav'n I'll see

I think about you all so much
And hope you understand
I miss you each and ev'ry day
And long to hold your hands

But you are all together now
Waiting for the day
That we can be united
And Mom will always stay

Until that day I will proclaim
What life is all about
You were known to God before all time
Before I found you out

You were not just living tissue
Your soul was from above
From the God of all creation
The author of all love

So now I live with God's own grace
And knowing 'til I'm there
That there are little Angels
Watching o'er my care

Take care my little Angels
Rest with Jesus there
For the one who gave you to me
Gives peace beyond compare
